Popis

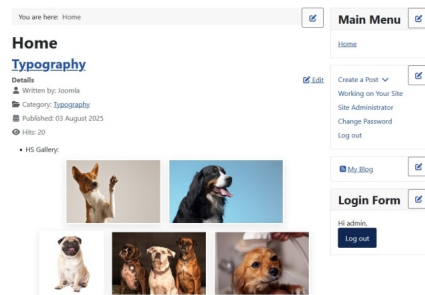

Current version HS Gallery Fields v.1.0.0
CMS Joomla 6

HS Gallery Fields is a standard article content field plugin for the Joomla FIELD CMS.

The plugin is systemically implemented into the so-called field (CMS Joomla FIELD), which can be used in the content of any article. If you need to offer visitors the opportunity to add photos in the article (for example, in the form of a photo gallery). Simple and fast solution.

Plugin - Field, can be placed in every article, or only in selected articles (with content).

Joomla Fields (or Custom Fields) are a powerful feature letting you add structured, custom data types (like calendars, images, lists, color pickers) to core Joomla content like Articles, Contacts, and Users, going beyond basic text to store specific info in the backend and display it beautifully on the frontend, organized by category or group with granular permissions.

Language versions of the plugin: **SK, GB,CZ,DE**

HS Gallery Fields includes an interface for automatic updates from the Joomla administration. In this way, we provide clients who have purchased the services of this product with automatic and free updates to the latest versions in the future. This extension is licensed under [GNU/GPL](#).
