Establishment and technical implementation of myPAY ONLINE

MyPAY is designed for so-called "Non-mobile content," that is all goods and services that do not end up on a mobile phone. For example, you can pay for a highlight of advertising through the service. Plugin after entering the identifier and encryption key subsequently ready for active operation.

Price levels

When setting up service prices on your DJ-Classifieds Advertising Website, you need to realize that you have to set the final prices (the sum of the prices for your various advertising services) so that the resulting amount to be refunded matches one of the Values listed in the price level table. Current prices in the table of price levels (this spreadsheet only has an informative character) can be requested at A SMS, s.r.o. The price of the paid services can range from 0.10 to 20 € and (from 27 to 269 CZK for the Czech market). You can simultaneously use multiple price levels, but you can not create new prices by combining them together.
