

Office Board

The screenshot shows the Joomla Office Board interface. At the top is a navigation menu with 'OFFICE BOARD' highlighted. Below the menu is a breadcrumb trail: 'You are here: Home » Office Board » Edit Office Board » Edit Invoices'. On the left is a sidebar with 'OUR OFFER' containing links for Mobile Phones, Watches, Cameras, and Clothing. The main content area is titled 'Invoices' and features a table with columns: ID, Invoice number, Grade, Subject, Price, Published, Paid, Contractor, and File. The table contains five rows of invoice data. Above the table are search and sorting options, and below it is a 'Display # 20' dropdown.

ID	Invoice number	Grade	Subject	Price	Published	Paid	Contractor	File
1	SK1050012345	2015	Construction of bridges	200 000 €	2015-05-04	2015-05-29	Metrostav	
18	SK2050112322	2015	Construction of the hypermarket	480 000 €	2015-05-24	2015-05-24	Vahostav	
19	SK3050112301	2015	Road construction	1 156 000 €	2015-05-24	2015-05-24	Juristav	
20	SK4150112111	2015	Construction of sidewalks	189 000 €	2015-05-24	2015-05-24	Blistostav	
16	SK6820112171	2015	Cutting down the forest	2000 €	2015-05-23	2015-05-23	Lomitav	

A smaller version of the Joomla Office Board Invoices page screenshot, showing the same interface elements as the main image above.

The component allows you to publish contracts, invoices and orders on the website with Joomla CMS system.

Description

Official Table - Publishing Treaties, Invoices and Orders

v.3.6.1 CMS Joomla 3. Min.version PHP: 5.5.x

From 1 January 2011, municipalities and cities and contributory organizations also have the obligation to publish contracts concluded after this date relating to the handling of public funds. For this purpose, the component is determined **Official Table**, Which records and publishes

contracts, invoices and orders on a web site. The component is designed for web pages running on the CMS Joomla 3 platform. Component control is simple and intuitive. The component has a customer and vendor database (after filling) and invoices, orders and contracts. The component also displays documents that can be downloaded from the site (if associated with the document). For example, if the person responsible attaches, for example, information on the relevant invoice and a scanned invoice in PDF format, a site user is allowed to download and view the file. The number of downloads of published file systems leads to statistics. In addition to PDF formats, almost all the most commonly used file formats (such as images, text documents, excel spreadsheets, presentations, etc.) are supported. The official table is for municipalities and contributory organizations. In addition to the disclosure of contracts, the component has a record of notices, decrees, and the public procurement. The component allows administration from both the administration and the front end. This is a solution that can be of particular interest to administrators because they do not have to let the person responsible for publishing contracts, invoices, and orders to administer, but such a person serves this component (from a frontend) without having to have an account in the administration of the website. It is necessary to forbid such a person to grant access rights in the administration.

Language versions of the component: **SK, CZ, GB**

This component contains an interface for automatic update from Joomla administration. In this way, we provide customers who have purchased this product in the future automatically and free of charge to update to the latest versions. This license is licensed to this component [GNU/GPL](#).
